Earth and Environmental Science Transactions of The Royal Society of Edinburgh

Marketed and distributed for The Royal Society of
Edinburgh

Editor-in-Chief

Donald Davidson, University of Stirling, UK

Earth and Environmental Science Transactions (formerly *Transactions of the Royal Society of Edinburgh: Earth Sciences*) is a general earth sciences journal publishing a comprehensive selection of substantial peer-reviewed research papers, reviews and short communications of international standard across the broad spectrum of earth and environmental geosciences. The journal prides itself on the quality of its graphics and photographic reproduction. The Editors are keen to encourage interdisciplinary papers and *Transactions* also publishes occasional special symposia and invited volumes of specific interest.

JOURNAL POLICY

Paleobiology publishes original research contributions dealing with any aspect of biological paleontology and geobiology. Papers should emphasize biological or paleobiological processes and patterns and seek to answer a question or test a hypothesis or broad significance. Appropriate topics or themes include, but are not limited to, speciation, extinction, development, natural selection, evolution, and patterns of variation, abundance, and distribution in space and time. Papers concerning research on recent organisms and systems are appropriate if they are relevant to paleontologists.

All manuscripts are to be in English. A guide to manuscript preparation is published online at: <http://journals.cambridge.org/PAB> and at <http://www.paleosoc.org/paleobio.htm>. All manuscript submissions and the review process are handled online at: <https://mc.manuscriptcentral.com/pab>. Submission of a manuscript to *Paleobiology* implies that it is not simultaneously being considered for publication by another journal.

Manuscripts are typically 50 pages or less (including text, references, tables, and figures); shorter manuscripts are encouraged. Supplementary materials (including, for example, large data tables) are not published in the print version, but are archived at DRYAD at <http://datadryad.org/>. Pre-submission inquiries about potential suitability of manuscripts should be directed to the editors at: paleobiology@cambridge.org.

MANUSCRIPT ACCEPTANCE POLICY

It is understood that, in return for publication, the journal has the nonexclusive right to publish the contribution and the continuing right, without limit, to include the contribution as part of an reprinting of the issue and/or volume of the journal in which the contribution first appeared by any means and in any format, including computer-assisted storage and readout, in which the issue and/or volume may be produced by the publisher or by its licensed agencies.
